

# Teacher Booster Discussion Guide

## bCyberwise - Session 2 - Positive Interactions Online

### Introduction

These discussion questions are provided as suggestions to assist teachers to deepen the students comprehension of the content that has been taught as part of your schools Life Ed visit. The Booster Session discussions integrate a variety of question styles to engage learners; by activating prior knowledge, revisiting new knowledge and extending understanding by posing open-ended questions. The booster sessions can be used in a couple of ways after the Life Ed visit. Teachers may like to watch the video in full and use the discussion points as a summing up activity. Teachers may also like to stop the video throughout to pose questions, or respond to student ideas and questions.

### Note:

Life Ed is committed to child safety, health and wellbeing. We want all children to be safe, happy and empowered. When learning about these important ideas and topics, teachers are reminded to follow your school's Child Protection Policy to ensure that classrooms are a safe learning space.

### Why is it important to check with a trusted adult before you use a game or app?

(Some have age restrictions.) (open ended)

### What are the age restrictions on the following apps/games?

#### Why do you think they have these age restrictions?

(open ended)

Facebook – 13+, YouTube - 13+, Instagram - 13+, TikTok 13+, Pokémon Go - 10+, Snapchat - 13+, Minecraft - 10+, Roblox 8+ recommended, Fortnite – 13+

### What should you do before you accept a friend request?

(Talk with an adult and check them out together.)

### What happened to Harold when he was playing his game online?

(He was contacted by someone he didn't know. The other person gave compliments, and asked suggestive questions. The other person told Harold to turn his camera on and keep it a secret.)

### What are some of the body's clues or warning signs that we may be unsafe or in danger?

(Heart beat faster, hair on neck stands up, breathing faster, feeling alert, sick in the stomach. muscles feel tighter, sweaty palms/hands)

### Who are 5 safe adults that you could talk to if you feel unsafe online or in real life?

(open ended)
